

Installer

The Installer will be responsible for installing high-end garage products and systems, including floor coating, cabinetry and slatwall storage. The ideal candidate will have experience in installation, possess strong technical skills, be a confident communicator, and have excellent attention to detail. Our company is fast-paced and requires clear, verbal communicators. We are looking for individuals that are hardworking, quick learners, with experience in construction/flooring.

Responsibilities include:

- Install and assemble garage components; including steel cabinets, slatwall, car lifts, custom enclosures, and flooring
- Follow blueprints, diagrams, and instructions to ensure accurate installation
- Test installed products and systems to ensure proper functionality
- Troubleshoot and resolve any issues or defects in the installation process
- Collaborate with team members to complete projects efficiently and effectively
- Maintain a clean, organized, and safe work area

Experience:

- High school diploma or equivalent
- Previous experience in installation or a related field preferred
- Flooring installers should have at least 1 year of experience in floor coating, and flooring prep.
- Strong technical skills and ability to read blueprints and diagrams
- Excellent attention to detail and problem-solving abilities
- Ability to work efficiently while maintaining the high-quality standards of the organization.
- Clean driver's license
- Strong communication skills
